Re: Maplewood Cemetery - Henrietta, NY
Layout Proposals - Sections L and M

Dear Gary:

We have prepared two individual proposals for the opening of Sections L and M in Maplewood Cemetery. Two copies of each are enclosed for your review.

Proposal #1 is for us to lay out and set the horizontal control for the road construction within these sections (please see Exhibit "A"). We would set these control points as soon as possible after receiving a signed contract so that the cemetery will have as much time as needed to build the road.

Proposal #2 is for the field layout and corner marker installation for approximately 1,558 graves and 5 cremation plots (see Exhibit "A"). This would also include the production of final verified maps for your recordkeeping.

The only other cost involved with the lot layout is for the aluminum and steel lot corner markers. We tally the markers needed and place the order on behalf of the cemetery as a part of our services, but they would be billed and shipped directly to the cemetery. Marker costs can increase at any time, but the following is an estimate for your layout based on last year's pricing:

4" round numbered lot corner markers, delivered	\$2,975 ±
4" round blank lot corner markers, delivered	\$1,200 ±

You can authorize the work by returning one copy of each proposal with signature. We would then schedule the road control trip, order the markers and add your layouts to our field schedule. Please call if you have any questions.

Very truly yours,
GREVER & WARD, INC.
